

## **Corvus Named to “Ready to Rocket” List of Fast Growth Businesses**

**RICHMOND, B.C.** (March 1, 2011) – Corvus Energy Ltd., the innovator behind an advanced lithium-ion battery technology for transportation, marine and heavy power storage applications, this week was named to the prestigious “Ready to Rocket” list of top British Columbia-based technology companies with the greatest potential for revenue growth.

The list is annually developed by Rocket Builders, a Vancouver, B.C.-based management consulting firm focused on the tech market. Each year, based on analysis of trends that will drive growth in the information technology sector, Rocket Builders identifies the top private companies that are best positioned to capitalize on trends for growth.

“We identify companies that have proven their technology and are positioned well for growth. Our analysis of market trends led to our selection of Corvus Energy as a Ready to Rocket Cleantech company.” said Dave Thomas, Senior Partner, Rocket Builders.

Rocket Builders noted that "Ready to Rocket" companies, on average, have exceeded a 50% annual revenue growth rate and have significantly increased their employee headcount each year since the list was launched in 2003.

Corvus Energy’s proprietary lithium-ion battery design delivers the world’s greatest battery power and highest energy density with an extensive lifespan. The technology is currently being used to create hybrid and full electric workboats that can withstand harsh ocean and port environments and drastically minimize fuel consumption and emissions through hybrid drive systems.

### **About Corvus Energy:**

Corvus Energy, founded in 2009, is focused on harnessing the power of advanced lithium-ion battery systems for the transportation, marine and renewable energy markets. For more information on Corvus Energy, visit [www.corvus-energy.com](http://www.corvus-energy.com) or call (604) 227-2080.

### **About Ready to Rocket**

Ready to Rocket is a unique business recognition list that profiles technology companies with the greatest potential for revenue growth. Each year, based on analysis of trends that will drive growth in the information technology sector, Rocket Builders identifies the top private companies that are best positioned to capitalize on the trends for growth. This selection methodology has been an accurate predictor of growth with "Ready to Rocket" companies exceeding the industry growth rate. Also, many of these companies raise investment capital and each year many of the profiled "Ready to Rocket" companies are acquired.
